OBJECTIVE

Analytical and results-oriented Data Science graduate with a passion for sports-related predictive analytics. Proficient in programming and data modeling, with a proven track record of accurately predicting complex outcomes. Seeking opportunities to leverage skills and knowledge to drive insights and innovation in the sports industry.

PROFESSIONAL EXPERIENCE

Intern, Process Sciences – Regeneron Pharmaceuticals – East Greenbush, NY – May 2023 - August 2023

✓ Enhanced existing Excel templates for unified data hierarchy, facilitating streamlined data analysis.

✓ Designed and presented graphical representations of data hierarchy to department stakeholders.

✓ Led focus groups and created project posters to communicate findings effectively.

Social Media Posts – October 2022 – Present – X (Formerly Twitter) Predictions

✓ Utilized predictive data models built with DataRobot to accurately forecast sports outcomes, including MLB World Series, NBA finals, and Super Bowl winners.

✓ Developed machine learning models using TensorFlow and scikit-learn to predict championship teams and outcomes.

✓ Achieved high accuracy in predicting per game performance metrics during MLB playoffs. (As proof, please refer to the pinned thread on my X account: *@conord282* and my GitHub repository: *ConorD28*)

CERTIFICATES / SKILLS

✓ Baseball Analytics Certificate, Scoutables, Sports Management Worldwide (2023)

✓ Training in sabermetrics, advanced baseball statistics, data-driven scouting, and in-game preparation.

✓ Mentored by Ari Kaplan, Founder of Scoutables. *References:* Dr. Lynn Lashbrook, President, Sports Management Worldwide, 503-445-7105. Ari Kaplan, kaplanball@gmail.com

✓ Rapsodo Pitching Certificate (Jun 2023)

✓ Skills: R, SQL, Java, Python, C++, SPSS Modeler, Excel; Intermediate Spanish
